

TITLE 11

CHAPTER 4

REVIEW AND PLAT REQUIREMENTS

SECTION:

- 11-4-1: Development Review Process
- 11-4-2: Preliminary Plat
- 11-4-3: Final Plat

11-4-1: DEVELOPMENT REVIEW PROCESS

A. Intent:

1. By the time an subdivider applicant creates a preliminary plat, both the subdivider applicant and the city have made a substantial investment in time and money. In addition, once the preliminary plat has been completed, it is difficult and expensive to rework the plans for the project.
2. To better meet the needs of the city and the subdivider applicant, the city has adopted the following development review process, which requires subdivision applications and approvals to be administrative decisions, whereby an application must be approved if it meets the approved requirements. This is also intended to remove discretion in the decision-making process.
3. The following subdivision process applies to all residential project types, except for Minor Subdivisions (see City Code 11-5 Review and Plat Requirements - Minor Subdivisions).
The following subdivision process applies to all residential and missed use project types, including minor subdivisions (see Title 10-4-A) and Residential Planned Unit Development Zones (Title 10-10).
4. Review Cycle. There shall be no more than four (4) total review cycles. The first review cycle will be performed by the Planning Commission for the Preliminary Plat; the remaining review cycles will be performed by the Development Review Committee for the Final Plat. A single review cycle shall be considered complete when:
 - a. A complete Application is submitted to the Administrative Land Use Authority;
 - b. The Administrative Land Use Authority Review is complete;
 - c. The Applicant Response to Review is complete; and

Formatted: Font color: Auto

Formatted: Indent: Left: 0.5", Hanging: 0.38"

Formatted: Not Highlight

Formatted: Indent: Left: 0.75"

5. Review Cycle, Exceptions.

a. Additional review cycles may be required when a modification or correction is necessary to protect public health and safety or to enforce state or federal law when a change or correction is necessitated by the Applicant's adjustment to a plan set or an update to a phase plan that adjusts infrastructure needed for the specific development.

Formatted: Indent: Left: 0.75", Hanging: 0.25", No bullets or numbering

Formatted: Indent: Left: 0.75"

b. Additional Time for Review. If the Applicant does not submit a revised plan within twenty (20) business days after the Administrative Land Use Authority requires a modification or correction, the Administrative Land Use Authority shall have an additional twenty (20) business days to respond.

Formatted: Font: Bold, Font color: Black

Formatted: Indent: Left: 0", First line: 0"

Formatted: Indent: Left: 0.5", Hanging: 0.38", No bullets or numbering

A. Optional Pre-application Meeting:

Intent: The purpose of the pre-application meeting is to allow the subdivider/applicant the opportunity to share with the administrative land use authority (as defined by Utah Code Ann. § 10-9a-604.1) his/her proposed project plans. It also gives the administrative land use authority the opportunity to share with the subdivider/applicant the city's thoughts and ideas.

Formatted: Indent: Left: 0.88", No bullets or numbering

A pre application meeting cannot be mandated, although it can be held if requested by the applicant. The city strongly encourages that pre application meetings are held under most circumstances.

Commented [m1]: You should have legal staff review this statement to ensure it is aligned with the intent that pre-app meetings can not be required

Formatted: Indent: Left: 0.88", No bullets or numbering

If an applicant requests that a pre application meeting be held and the City subsequently approves the request, the administrative land use authority will comment on the compatibility of the proposed development with the general plan and general compliance with the zoning ordinance, this title, and other ordinances and/or city regulations.

Formatted: Indent: Left: 0.88", No bullets or numbering

2. Process: The subdivider/applicant shall obtain and review a copy of the subdivision ordinance and application from the city or the city's website. After submittal of the application and payment of the fee, the subdivider/applicant may contact the city recorder to schedule a pre application meeting. The City Recorder shall schedule a conference with the administrative land use authority within ten (10) business days of receiving the request. The subdivider/applicant shall provide the following information to the administrative land use authority:

a. A general description of the existing conditions of the site.

- ~~b. A sketch plan (hard copy or digital copy in pdf format) showing the proposed subdivision layout, including the numbers of lots and street locations.~~
 - ~~c. The relationship of the proposed subdivision to existing utilities and streets.~~
- ~~3. Pre-application Meeting. At the pre-application meeting, the City shall provide the website where the applicable land use regulations can be found, a complete list of standards required for the project, preliminary and final application checklists, and feedback on the concept plan. The meeting may be in a public setting or at a municipal staff level.~~
- ~~4. Administrative Land Use Authority Recommendation: Once the administrative land use authority has a general idea of what is desired for the proposed development, they will forward the sketch plan to the planning commission for further consideration along with notes of the pre-application meeting and a recommendation to approve, conditionally approve or reject the proposed development. If a preliminary subdivision application complies with applicable city ordinances, the administrative land use authority shall forward their recommendation to the planning commission.~~

~~B. Concept Plan:~~

- ~~1. Intent: With the administrative land use authority's recommendation and pre-application meeting notes, the planning commission and the subdivider~~applicant~~ can review the proposed development to get a general idea of what is desired and how each visualizes the final product. While this is not a full preliminary plan (it will not contain the technical aspects of a fully engineered plan), the concept plan is the step where major decisions are made and agreed to.~~
- ~~2. Process:~~
 - ~~a. At least one week prior to a regularly scheduled planning commission meeting, the subdivider~~applicant~~ shall inform the planning commission chairperson of his/her desire to be on the agenda and shall submit the concept plan, overlayed on the site analysis map. If the concept plan, overlayed on the site analysis map, is not submitted or notice not given one week prior to the next regularly scheduled planning commission meeting, discussion of the project may be placed on the agenda of the following regularly scheduled planning commission meeting. Seven (7) copies 11" x 17" and a digital copy in pdf format of the concept plan shall be submitted.~~
 - ~~b. For areas where development is planned to occur in phases, the concept plan shall show the entire area for which all final plat approvals will be requested. The concept plan will be a guide but will have no official standing. It may be amended or modified from time to time by the subdivider~~applicant~~. Only the final plat shall have official standing which shall permit the subdivider~~applicant~~ to proceed with subdivision construction.~~

Formatted: Strikethrough

~~3. Site Analysis~~

- ~~a. Intent: The purpose of having a site analysis map completed is to better understand what parts of the land are buildable, what must be left alone, and what features the community may want to preserve.~~
- ~~b. Process: The subdivider/applicant prepares a site analysis map of the property of the proposed project site. The site analysis map shall be prepared in a digital pdf format and shall include all existing resources, including, but not limited to:
 - ~~(1) environmental features such as streams, slopes, wetlands, and floodplains,~~
 - ~~(2) historical sites and building,~~
 - ~~(3) cultural features,~~
 - ~~(4) unusual vegetation,~~
 - ~~(5) wildlife habitats and paths,~~
 - ~~(6) unusual rock formations,~~
 - ~~(7) any other features that make the property distinctive. (See title 10, chapter 11 of this code for additional information.)~~~~
- ~~4. Concept Plan Requirements: The concept plan, prepared on the site analysis map, shall include the following items:
 - ~~a. The proposed name of the subdivision.~~
 - ~~b. A contour map (request for these maps can be made from the U.S. Geological Survey [USGS]).~~
 - ~~c. A map showing soil types (requests for these maps can be made through the Soil Conservation Service [SCS]).~~
 - ~~d. A map showing flood hazard areas, including the 100-year recurrence interval flood; or where such data is not available, the maximum flood of record.~~
 - ~~e. A map showing potential geographical hazards, e.g., earthquake fault lines.~~
 - ~~f. The property boundaries of the proposed subdivision.~~
 - ~~g. The names of the owner, subdivider/applicant, if other than the owner, and the engineer or designer of the subdivision.~~~~

- h. Boundaries of adjacent properties and names of adjacent property owners.
 - i. Approximate number of lots proposed and street layout, indicating general scale dimensions of lots.
 - j. Approximate total acreage of the development as well as size of the individual lots.
 - k. All property under control of the subdivider~~applicant~~, even if only a portion is being subdivided.
 - l. Location, width, and names of existing streets within two hundred feet (200') of the subdivision and of all previously platted streets or other public ways, railroad and utilities rights of way, parks and other public open space, permanent buildings and structures, houses or permanent easements, and section and corporate lines within and adjacent to the tract.
 - m. Parcels of land intended to be dedicated or temporarily reserved for public use or set aside for use of property owners in a subdivision, including, but not limited to, sites for parks, playgrounds, schools, or other public uses.
 - n. Location of natural drainage channels and the proposed storm and surface water drainage system.
 - o. Description of the types of water systems proposed, both culinary and irrigation, along with all water rights.
 - p. Description of the type of sewer or sanitary waste system proposed.
 - q. Present zoning.
 - r. Date of preparation, scale of drawing and north arrow.
5. Site Visit:
- a. Intent: Seeing the property and its features will aid in understanding the dimensions and elements of the property. Important features may be very different than they appear on paper; not all natural resources are alike or have the same value. Before the planning commission agrees to modifications of the property, they should know the full impact on the surrounding area.
 - b. Process: After an acceptable concept plan, prepared on the site analysis map, has been received, the planning commission, with the subdivider~~applicant~~ encouraged to attend, will walk, or drive around the proposed project site property. The site visit may be made as part of the same planning commission meeting where the concept plan is discussed.
6. Action by Planning Commission:

- a. ~~The planning commission shall review the concept plan presented by the subdividerapplicant and compare it to the general plan, the zoning ordinance, this title, and other ordinances and/or regulations to determine compliance.~~
- b. ~~A public hearing will be held in accordance with section 10-3-9 of Title 10.~~
- c. ~~After the public hearing, the planning commission will coordinate with the subdividerapplicant any changes to the concept plan which will be reflected on updated drawings.~~
- d. ~~After the agreed upon changes are reflected, the planning commission will forward the concept plan to the city council for their consideration. They may approve, conditionally approve, or reject the concept plan.~~
- e. ~~Not later than thirty (30) days after the city council's consideration, the planning commission will communicate to the subdividerapplicant, in writing, its comments, requirements and recommendations. Upon approval, the subdividerapplicant may then proceed with the preparation of a preliminary plat. In the event a preliminary plat for at least one phase of the proposed subdivision has not been submitted to the planning commission for approval within twelve (12) months from the date of said communication from the planning commission, a new concept plan must be submitted and approved before a preliminary plat can be submitted for approval.~~

~~(6-2023, 10-3-23)~~

11-4-2: PRELIMINARY PLAT

A. Pre-application Meeting:

1. Intent: The purpose of a pre-application meeting is to allow the applicant the opportunity to share proposed project plans with the administrative land use authority (ALUA). It also allows the ALUA to share thoughts and ideas with the applicant regarding the proposed plans.
2. The city recommends that a pre-application meeting is held as a course of procedure. However, a pre-application meeting is optional cannot be mandated. If requested, a pre-application meeting shall be held within 15 days of an applicant request.
3. If an applicant requests that a pre-application meeting is held, the ALUA will comment on the compatibility of the proposed development with the general plan, the zoning ordinance, this title, and other ordinances and/or city regulations and policies.

B. Preliminary Subdivision Application Approval: The Planning Commission shall

Commented [m2]: Please note that the code changes are limited to a 2-step process (Preliminary Plat and Final Plat). Neither a Pre-application Meeting or a Concept Plan can be required per current statutes, and can only be held if requested by the applicant.

Since River Heights currently requires both a Pre-app meeting and a concept Plan, I have only maintained the Pre-app Meeting as an option, and have tried to incorporate as much of the current Concept Plan requirements that are missing in the Preliminary Plat as possible. Since the applicants may choose not to attend a Pre-app Meeting or submit a Concept Plan, I feel that this will help ensure the level of detail and assessment contained in the current Concept Plan is not lost.

act as the administrative land use authority that receives, reviews, considers and issues its approval of preliminary plat subdivisions. It is charged with making investigations, reports and recommendations on proposed subdivisions as to their conformance to the General Plan and Zoning Ordinance, and other pertinent ordinances, regulations, documents, standards and requirements. After reviewing the preliminary plat and determining that it meets all the applicable preliminary requirements and standards, the Planning Commission may approve, approve with conditions, or disapprove of the preliminary plat to the Development Review Committee.

C. The Planning Commission shall review the preliminary plat and may visit the site of the proposed subdivision if deemed appropriate. The applicant must submit the application within 16 business days prior to a scheduled Planning Commission meeting, and the Planning Commission must review the subdivision application within 15 business days from the date a complete application has been received.

D. The Planning Commission will discuss the application and the findings of their review during a regularly scheduled Planning Commission meeting, which may include a single public hearing to receive public comment, although a public hearing is not required and is not recommended.

A. Submittal Process: ~~Seven~~ Twelve (12) 11"x17" hard copies and one (1) digital copy in pdf format of the preliminary plat shall be submitted to the ~~city~~ City for review by the ALUA. ~~These copies are to be submitted at least five (5) working days prior to the next regularly scheduled planning commission meeting. The planning commission may, if said preliminary plats are not so submitted beforehand, postpone its consideration thereof until its next regularly scheduled meeting.~~

E.

1. ~~City Engineer Review: One copy of the preliminary plat in digital format shall be delivered to the city engineer for review. After his/her review, the city engineer shall transmit any conclusions and recommendations to the planning commission.~~

2.1. ~~Planning Commission Review: Seven (7) 11"x17" hard copies and one (1) digital copy in pdf format of the preliminary plat shall be submitted to the planning commission for the commission and other city departments, as required, to review. After completion of the all required reviews deemed necessary, the the planning commission/ALUA shall approve, conditionally approve, or reject the preliminary plat, or the planning commission may table the preliminary plat for consideration at the next regularly scheduled planning commission meeting.~~

(6-2023, 10-3-23)

B.F. Preliminary Plat Requirements: The preliminary plat shall comply with the following requirements:

Formatted: Indent: Left: 0.63", No bullets or numbering

Formatted: Outline numbered + Level: 2 + Numbering Style: A, B, C, ... + Start at: 1 + Alignment: Left + Aligned at: 0.13" + Indent at: 0.63"

1. Basic Information: In a title block located along the bottom or right-hand side of the twenty-four inch by thirty six inch (24" x 36") plat sheet, the following shall appear:

- a. The proposed name of the subdivision.
- b. The location of the subdivision, including the address, the section, the township, and the range.
- c. The names and addresses of the owner, and subdivider/applicant, if other than the owner. Also include an affidavit or certificate of clear title to the effect that the applicant is the owner of, or that he is authorized by the owner in writing to make application for, the land proposed to be subdivided. The affidavit or certificate shall state clearly in which status the applicant makes his application, and if it is in the latter status, a copy of said written authorization from the owner shall be submitted with the preliminary plat.
- d. A signed statement shall be provided for decision by the ALUA from each of the utility companies involved, stating that they have reviewed the plat, that they approve the plat as it relates to their company, that they agree with placing all of their utilities underground within the rights-of-way or utility easements as shown on the plans and are willing to provide the needed service for the development. Also included in said ~~statements shall also include~~ statements shall be descriptions of any restrictions that will be imposed by the utility companies, any fees that will be assessed by the utility companies to install the utilities and any timetables that the utility companies might use to install their respective utilities.
- e. Signature blocks for the city engineer, fire department and solid waste department approval.
- f. A block for the planning commission ~~ALUA~~ approval by the signature of the chairperson of the planning commission ~~ALUA~~; and
- g. Date of preparation, scale as previously determined (at least 100 feet to the inch), and north arrow.

2. Existing Conditions: The preliminary plat shall also show all appropriate and pertinent information either shown on the site analysis map or discussed during the development review process. At a minimum, the following shall be shown:

- a. The location of the nearest legal monument.
- b. The boundary of the proposed subdivision and the acreage included.
- c. All property under control of the subdivider/applicant, even though only a portion may be subdivided. Where the plat submitted only covers part of the subdivider/applicant's tract, a sketch of the prospective street system

of the unplatted parts of the subdivider/applicant's land shall be submitted, and the street system of the part submitted shall be considered in light of existing master street plans or other planning commission studies.

- d. The location, width, and names of all existing streets within two hundred feet (200') of the subdivision and of all prior platted streets or other public ways, railroad and utility rights of way, parks, and other public open spaces, permanent easements and section and corporation lines within and adjacent to the tract.
- e. The location of wells, proposed, active and abandoned, and of all reservoirs within the tract and to a distance of at least one hundred feet (100') beyond the tract boundaries.
- f. Existing sewers, water mains, culverts, or other underground facilities within the tract and to one hundred feet (100') beyond the tract boundaries, indicating pipe sizes, grades, manholes and their exact locations.
- g. Existing ditches, canals, natural drainage channels and open waterways and any proposed realignments within the tract and to one hundred feet (100') beyond the tract boundaries.
- h. Boundary lines of adjacent tracts of unsubdivided land, showing ownership; and
- i. Contours at vertical intervals of not more than two feet (2'), excepting in mountainous or otherwise steep areas where a more practical interval would be warranted.
- j. Current zoning.
- k. Date of preparation, graphic and numerical scale of drawing, and north arrow.

3. Site Analysis

- a. Intent: The purpose of having a site analysis map completed is to better understand what parts of the land are buildable, what must be left alone, and what features the community may want to preserve.
- b. Process: The applicant prepares a site analysis map of the property of the proposed project site. The site analysis map shall be prepared in a digital pdf format and shall include all existing resources, including, but not limited to:
 - (1) A contour map (request for these maps can be made from the U.S. Geological Survey [USGS]).

3-5. Proposed Plan: The preliminary plat shall also show all appropriate and pertinent information ~~discussed during the development~~required to facilitate a thorough review process. At a minimum, the following shall be shown:

Formatted: Not Strikethrough

Formatted: Not Strikethrough

Formatted: Font:

Formatted: ...

a. The layout of the streets, showing location, widths, and other dimensions of proposed streets (designated by actual or proposed names and numbers), crosswalks, alleys, and easements.

Formatted: Normal, No bullets or numbering

Formatted: ...

Formatted: ...

- b. The layout, numbers, and typical dimensions of lots.
- c. Parcels of land intended to be dedicated or temporarily reserved for public use or set aside for use of property owners in the subdivision.
- d. Building setback lines; ~~showing dimensions where required by the planning commission as required by code.~~
- e. Easements for water, sewers, drainage, utility lines and other purposes, as required ~~by the planning commission code~~ and/or ~~any~~ utility company requirements.
- f. The layout of culinary water (including fire hydrants) and sanitary sewer improvements that will provide service to each lot in the subdivision.
- g. The location of light poles.
- h. Typical street cross sections and grades of streets where required by ~~the planning commission code.~~
- i. A tentative plan or method by which the ~~subdivider~~ applicant proposes to handle storm water drainage for the subdivision.
- j. Where necessary, copies of any agreements with adjacent property owners relevant to the proposed subdivision. Said agreements shall be presented to the ~~planning commission~~ ALUA at the time of preliminary plat submission.

~~Preliminary Plat Approval/Subdivision Application Approval: The planning commission, city engineer, and other interested city departments ALUA shall review the preliminary plat and may revisit and visit the site of the proposed subdivision. The ALUA must review the subdivision application within 15 business days from the date a complete application has been received. The ALUA may conduct a single public hearing and receive public comment as part of this process, although a public hearing is not required and is not recommended.~~

~~Following this investigation, the planning commission shall approve, conditionally approve, or reject the preliminary plat as submitted. The planning commission shall not take action to approve or disapprove the plat until written approval is received from each of the interested city departments. If the preliminary plat is approved, the planning commission shall return one copy of the plat signed by the planning commission chairperson to the subdivider with any conditions attached. Other signed copies shall be forwarded to each of the interested city departments. The planning commission shall retain one signed copy of the plat for its files. If the preliminary plat is rejected, the planning commission shall indicate its disapproval by distributing signed copies of the plat bearing the reason for the rejection.~~

- G. If the preliminary application complies with applicable local regulations, it shall be approved and proceed to Final Subdivision review. If the preliminary plat is approved, the ~~The~~ ALUA shall return one signed copy of the plat to the applicant

H. If the preliminary plat is rejected, the ALUA shall return a signed copy of the plat bearing the reason for the rejection.

G.I. The receipt of a signed copy of the approved preliminary plat shall authorize the subdivider-applicant to proceed with the preparation of the final plat and construction documents. In the event a final plat is not submitted for at least one phase of the proposed subdivision within twelve (12) months following approval of the preliminary plat, such prior approvals shall be void and the subdivider-applicant shall again be required to submit a sketch plan as per this title. When a subdivision is developed in phases, the final plat for a second phase and any subsequent phases must be submitted for approval within two years of the previous phase approval, or as extended by the City Council. If a second phase and any subsequent phases is not submitted within two years of the previous phase approval, the preliminary plat and sketch plan approval for all phases not submitted shall be void. (3-2014, 6-10-14)

11-4-2: **11.4.3: FINAL PLAT**

A. Purpose: To provide formal review and approval of the proposed subdivision by the Development Review Committee before a subdivision plat is recorded. The final plat and construction plans submitted shall conform in all respects to those regulations and requirements specified during the preliminary plat procedure. Intent: The planning commission/ALUA must review, and city council approves, conditionally approves, or rejects the final plat. The ALUA must complete this process within 20 business days following submittal and acceptance of the original Final Plat Application.

Formatted: Indent: Left: 0", Hanging: 1", No bullets or numbering

Formatted: Not Highlight

B. Final Plat Review Process:

1. The Development Review Committee shall review the final plat and construction plans and determine compliance with all standards and criteria set forth in this Ordinance and all other applicable ordinances of the City and the State of Utah.

Formatted: Indent: Left: 0.5", No bullets or numbering

Formatted: Not Highlight

Formatted: Left, Indent: Left: 0.5", No bullets or numbering, No widow/orphan control

2. If the Development Review Committee determines that the final plat is in conformity with the requirements of this Title, other applicable ordinances, and any reasonable conditions, that all fees have been paid as required, and that the City is satisfied with the final plat of the subdivision, it may approve the final plat.

Formatted: Normal, No bullets or numbering

Formatted: Left, Indent: Left: 0.5", No bullets or numbering, No widow/orphan control

3. If the Development Review Committee determines that the final plat is not in conformity with this Title or other applicable ordinances, it may disapprove the final plat specifying the reasons for such disapproval. No final plat shall have any force or effect unless the same has been approved by the Development

Formatted: Left, Indent: Left: 0.5", No bullets or numbering, No widow/orphan control

Review Committee, City Engineer, City Attorney, and signed by the Mayor and City Recorder.

C. The Review Cycle is Capped:-

A maximum of fourthree review cycles is permitted between Preliminary and during the Final Plat Approval review process. A-

1. A review cycle is not considered complete until the applicant has adequately addressed all of all the redlines identified by the municipality. The Citycity may only add new redlines after the first review cycle in response to changes made by the applicant or if a correction is necessary to protect public health or safety, or to enforce state or federal law.
2. The Development Review Committee shall complete a review of the plat within twenty 20-business days per review cycle after it is submitted for review. If the final plat complies, the City Engineer shall sign the plat in the appropriate signature block. If the final plat or the construction plans do not comply, they shall be returned to the developer with comment.

D. Signing and Recording of Final Subdivision Plat:

A. The Mayor shall endorse approval of the plat after the Bond Agreement has been approved by the Development Review Committee, and all the conditions of the resolution pertaining to the plat have been satisfied. With fully engineered construction drawings approved by the city, an approved final plat is-shall be recorded in the office of the county recorder.

E. Submittal Process: One PDF digital copy and t-Two (2) full size (24"x36") and eight (8) reduced size (11"x17") hard copies of the final plat shall be submitted to the Ceity for ALUA review.

B. These copies are to be submitted at least seven (7) calendar days prior to the next regularly scheduled planning Planning Commission meeting. The planning commission may, if said final plats are not so submitted beforehand, postpone its consideration thereof until its next regularly scheduled meeting.

1. City Engineer Review: One full-sized copy of the final plat shall be delivered to the city engineer for review. After his/her review, the city engineer shall transmit any conclusions and recommendations to the planning commission.

2. Public Works Review: One full-sized copy of the final plat shall be delivered to the city public works director for review. He will transmit his recommendations to the city engineer.

3. Planning Commission Review: Eight (8) copies of the final plat shall be submitted to the planning commission for review. After their review, the planning commission shall approve, conditionally approve, or reject the final plat, or the planning commission may table the final plat for consideration at the next regularly scheduled planning commission meeting.

Style: 1, 2, 3, ... + Start at: 1 + Alignment: Left + Aligned at:
0.5" + Indent at: 0.75"

~~6.2. Final Plat Signatures: Upon approval of the construction drawings by the city engineer, he/she shall place their signature on the final plat. Upon receiving approval and signatures from the county board of health (if required) and the planning commission, the subdividerapplicant shall submit the approved plat, after all fees have been paid to the city, to the mayor for city council final approval. If approved by the city council, ALUA, the mayor shall place his or her signature upon the final plat, and at the appropriate time, cause the approved plat to be submitted to the city attorney. After the "security of performance", as defined in section 11-2-1 and described in section 11-5-1 of this title, has been properly posted and the development agreement verified, the city attorney shall place signature upon the final plat and shall have the plat recorded in the county recorder's office solely at the subdividerapplicant's expense. At the time of recording, the city attorney shall have recorded any and all restrictions placed upon all lots stating that the city will not issue any building permit for the approved subdivision until minimum improvements, as specified in this title, are complete.~~

~~2. Description and Delineation: The final plat shall show the following:~~

Formatted: Outline numbered + Level: 3 + Numbering
Style: 1, 2, 3, ... + Start at: 1 + Alignment: Left + Aligned at:
0.5" + Indent at: 0.75"

- a. The name of the subdivision as approved by the planning commission ALUA.
- b. Accurate angular and lineal dimensions for all lines, angles and curves used to describe boundaries, streets alleys, easements, setbacks, areas to be reserved for public use and important features.
- c. An identification system for all lots, blocks, and names of streets. Lot lines shall show dimensions in feet and hundredths. Metric measurements will become acceptable upon official U.S. government approval of the metric system for all such measurements.
- d. The street address for each lot, as assigned by the subdivider applicant and approved by the city. The north and west sides of the street shall be numbered odd and the south and east shall be numbered even. (1-2015, 6-23-15)
- e. True angles and distances to the nearest established street lines of official monuments which shall be accurately described in the plat and shown by the appropriate symbols.
- f. Radii, internal angles, points of curvatures, tangent bearings, and the length of all arcs.
- g. The accurate location of all monuments to be installed shown by the appropriate symbol. All United States, state, county, or other official benchmarks, monuments, or triangulation stations in or adjacent to the property shall be preserved in precise position.
- h. The dedication to the city of all improvements, which shall include, but shall not be limited to, streets, waterworks, sewer works, etc., included in the proposed subdivision.
- i. Street monuments installed by the subdivider applicant's engineer or land surveyor at points designated on the final plat as approved by the city engineer. Standard precast monuments will be furnished by the subdivider applicant and placed as approved.
- j. Rebar lot pins shall be shown on the plat and placed at each lot corner in the field prior to final approval.
- k. Accurate outlines and dimensions of any areas to be dedicated or reserved for public use, with the purposes indicated thereon, and of any area to be reserved by deed or covenant for the common use of all property owners.
- l. All boundary, lot, and other geometrics (bearings, distances, curved data, etc.) on the final plat posed to an accuracy of not less than one part in five thousand (1/5000).

~~(6) The planning commission's signature of approval.~~

Formatted: Normal, Left, No bullets or numbering

~~(7)(6)~~ The city's signature of approval by the mayor.

Formatted: Normal, Left, Indent: Left: 0", First line: 0"

~~(8)(7)~~ The city attorney's certificate of approval.

Formatted: Indent: Left: 1", Hanging: 0.38", Outline numbered + Level: 5 + Numbering Style: 1, 2, 3, ... + Start at: 1 + Alignment: Left + Aligned at: 1" + Indent at: 1.25"

~~(9)(8)~~ The county surveyor's certificate of approval.

Formatted: Indent: Left: 1", Hanging: 0.38", Outline numbered + Level: 5 + Numbering Style: 1, 2, 3, ... + Start at: 1 + Alignment: Left + Aligned at: 1" + Indent at: 1.25"

~~(10)(9)~~ The county recorder's stamp of approval according to requirements prior to final plat approval.

Formatted: Indent: Left: 1", Hanging: 0.38", Outline numbered + Level: 5 + Numbering Style: 1, 2, 3, ... + Start at: 1 + Alignment: Left + Aligned at: 1" + Indent at: 1.25"

3. Conditions, Covenants and Restrictions (CCRs): CCRs, together with the final plat, shall be approved by the planning commission, ALUA, together with the final plat, and approved by the city council. The CCRs will thereupon be recorded with the final plat. (5-2019, 9-10-19)

Formatted: Outline numbered + Level: 3 + Numbering Style: 1, 2, 3, ... + Start at: 1 + Alignment: Left + Aligned at: 0.5" + Indent at: 0.75"

4. Building Lots and Building Permits: Building lots in the approved subdivision may be sold after the final plat has been recorded. The lots, however, shall have recorded restrictions placed upon them stating that the city will not issue any building permit for any lot until minimum improvements, as specified by city ordinance, are complete. A building permit may be issued, however, if a waiver is signed stating that the city has no liability or responsibility to the subdivider/applicant.

Formatted: Outline numbered + Level: 3 + Numbering Style: 1, 2, 3, ... + Start at: 1 + Alignment: Left + Aligned at: 0.5" + Indent at: 0.75"

5. ~~Development Agreement~~ Subdivision Completion Agreement: ~~:-~~ The subdivider~~applicant~~ shall enter into and sign an agreement, after the security of performance has been properly posted, which shall indicate a timetable for completion of minimum and final improvements. ~~(8-12-2003)~~

~~Appeal Process: Two distinct appeal may be requested by the applicant once the four review cycles have been exhausted and the 20 day Final review period has passed.~~

~~For disputes regarding public improvements or engineering standards, the city will assemble a three person panel that will meet within 10 days of receiving a request from the applicant. This panel of experts shall include:~~

~~One licensed engineer designated by the municipality.~~

~~One licensed engineer designated by the land use applicant.~~

~~One licensed engineer, agreed upon, and designated by the two designated engineers.~~

~~Members appointed to the panel may not have an interest in the application. The applicant must pay 50% of the total cost of the panel and the municipality's published appeal fee, and the municipality pays the other 50%.~~

~~The panel's decision is final, unless the municipality or applicant petition for district court review within 30 days once the final written appeal decision has been issued.~~

~~For all other disputes, the municipality shall refer to the designated appeal authority upon request by the applicant (see 10-3-2 Appeal Authority).~~
