River Heights City News

October 2025

Office Hours: Mon-Thu, 9:30am-2:30pm 435-752-2646 office@riverheights.gov www.riverheights.gov

Message from the Sheriff

The valley has seen an increase of cases where vehicles have been stolen, driven around and either wrecked or abandoned. In many instances, the vehicles were left unlocked with the keys inside.

Please remember to remove keys from your parked vehicles, lock your vehicles, and be aware of what items can be seen through vehicle windows. These events are opportunistic for would-be thieves, but if we are mindful of the condition of our vehicles we can very easily prevent future issues.

RAPZ Funding

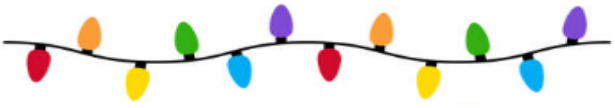
Over the years RAPZ has recognized the quality of River Heights' park projects, and therefore contributed significant funds towards them. Recently RAPZ paid $126,000 toward almost the entire cost of the new pavilion in the center of town at Heber Olson Park.

Since 2021 RAPZ has yearly funded a significant amount of the cost to develop Stewart Hill Park, located at 875 E Stewart Hill Drive. It is a beautiful new park that serves residents living in the north and east parts of town. There are 2 access points and parking areas on the east and west sides. The grass is finally beginning to look lush, trees are taking hold and the views are spectacular as you walk the perimeter path. Many couples, kids and families have been enjoying an evening stroll or skate around the loop. Come up and take a walk.

Tree Lighting - Dec 1

Meet your friends and neighbors at the Christmas tree on 600 East in the Heber Olson Park at 6:30pm for a sing-along and countdown. Afterward hot chocolate, donuts and a special visitor will be provided in the new pavilion.

Sponsored by the RHC Youth Ambassadors.



Be Informed

Are you interested in what's going on in the city? All city meetings are open to the pubic. Agendas are posted prior to the meetings and minutes are posted afterward. These can be found in two places:

- River Heights website at riverheights.gov.
- The State of Utah's Public Notice Website at utah.gov/pmn.

To receive email notifications every time the city posts to the state's website follow these steps to subscribe to City Council, Planning Commission, or other bodies of your choice:

1. Go to utah.gov/pmn.
2. Search for a notice and click on it.
3. On the right side of the public notice details are subscription options.
4. Select the type of subscription you want (RRS feed or email).

By subscribing to a Body (City Council, Planning Commission, etc.), you will be notified of any new notices as well as any updates to current notices published on the website for that Body.

Text Alerts

Would you like a heads up on water shut offs, road closures, upcoming city events, and other pertinent information from the city? By scanning the QR code and hitting "send" you will be signed up to receive city text message notifications. You can expect 0-2 texts per month.

Parking Restrictions

Reminder: It is unlawful to park vehicles on any public street from November 15 - March 15 between the hours of 4:00 am and 12:00 noon.

Cache County Study Committee Schedules

Public Open House Presentations Across Cache County

The Cache County Form of Government Study Committee, established to review the county's government structure, invites all residents to attend a series of upcoming public venue meetings. These events are a crucial part of the committee's work to gather public input on potential changes to the county's form of government.

The committee's mandate is to study the four forms of county government permitted under Utah law and to determine if a change could make local administration more responsive, accountable, efficient, and economical.

The public is encouraged to attend, ask questions, and share their perspectives. The meetings will feature an informational session followed by a roundtable format to facilitate in-depth discussion and feedback.

Hyrum - Thursday, September 25th @ 7:00 PM – Hyrum City Council Chambers, 60 West Main

Logan - Thursday, October 16th @ 7:00 PM – Logan City Council Chambers, 290 N 100 W

Smithfield - Thursday, October 23rd @ 7:00 PM – Smithfield City Council Chambers, 96 S Main Street

The committee welcomes all residents and looks forward to a productive set of meetings.

Stormwater Protection

Salt or alternative de-icing chemicals are used in winter maintenance to melt snow and ice to ensure pedestrian safety. When snow and ice melt, the water becomes stormwater runoff, which ends up in our streams, rivers and lakes. As the runoff moves over paved surfaces, it collects sand, salt and other pollutants and deposits them into surface water causing contamination.

When using de-icers, follow product directions carefully to reduce the amount used and choose environmentally preferable de-icing products to reduce your impact on our water system.
