Agricultural and Related Uses

91. Orchard for commercial use	P					
92. Crop production for sale	P					

¹Only a structure that is residential in appearance and maintains the character of the existing neighborhood in style and heights can be used for a professional office in a residential zone. An office building that is commercial in appearance cannot be constructed in a residential zone. (4-2010, 7-13-10) (1-2015, 6-23-15) (1-2016, 3-22-16) (4-2018, 10-9-18) (3-2020, 5-19-20)

²Maximum occupancy for an STVR shall be no more than two (2) people per bedroom and up to two (2) residents in one (1) non-bedroom space. An updated contact list of the owners must be submitted to the city office. Sufficient paved off-street parking must be available for all quest vehicles. All parking will be reviewed before a CUP is granted. (All winter parking must comply with city ordinances). The STVR owner is responsible for regulating noise generated by visitor stays. No STVR can be within 300 feet of another STVR. Landscape must be maintained and comply with River Heights City landscaping ordinances. Property owners may contract with third parties, including tenant agreements, to provide management and maintenance services required under this section, however property owners shall remain liable for any deficiencies or violations of this section. STVR owners must have primary residency in River Heights City. (1-2024, 2-20-2024)

³A maximum of two (2) vehicles to be repaired may be on the premises at any given time and must be repaired within an enclosed building. A vehicle being transported to or from the premises may be outside of the building for no more than fourteen (14) consecutive calendar days. Proper containment and disposal of all hazardous materials must be in accordance with state regulations. (11-2021, 12-7-21)

B. Zone Regulation Requirements

1. A Zoning Clearance Permit is required when constructing or adding a structure to the property. Structures include, but are not limited to: house, house addition, garage, carport, shed, deck, ground mounted solar panels, swimming pool, commercial building, covering for a deck, patio or porch (see 10-3-4).
2. One application is required per structure and per person.
3. The public works director and zoning administrator will sign permit or respond to applicant within 10 working days.

4. Failure to comply with restrictive covenants (including any limiting conditions contained on a recorded plat map) and/or situational safety concerns shall be grounds for denial of a Zoning Clearance Permit.
5. Applicant should consult Cache County Building Department to determine if a building permit is required.

(2-2019, 5-28-19)

- C. Classification of New and Unlisted Uses; Procedure: Should the zoning administrator and the building inspector determine that a type or form of land use which an applicant is seeking to locate in the city does not appear as a permitted or conditional use, he or she shall refer the request to the planning commission which shall determine the appropriate classification as follows:
1. Should the commission determine that the new or unlisted use for all intents and purposes, is listed under another name or category, they shall so inform the zoning administrator to proceed accordingly; or (5-2025, 11-18-25)
 2. The planning commission shall gather facts concerning the nature of the use, types of activities, impacts, etc., and shall transmit its findings and recommendations to the city council, who shall amend the land use chart. (Ord., 1-22-2002) (2-2021, 6-1-21)
- D. Uses Prohibited in Zones Unless Expressly Permitted: This title prohibits uses of land other than those expressly permitted within this title, excepting uses permitted by action of the planning commission and pursuant to express authority under the terms of this title. The planning commission and appeal authority shall not permit a use within a zone, which is not expressly permitted by the terms of this title, unless it can be shown that the use is similar to other uses permitted in the zone. (Ord., 1-22-2002; amd. Ord. 0-01-13, 1-11-2005, eff. retroactive to 11-26-2002; Ord. 04-12-14, 1-11-2005, eff. retroactive to 12-14-2004)

10-12-2: AREA REGULATIONS

- A. Residential Space Requirement Chart: The minimum lot sizes and setback distances for residential uses are listed in the following table 2:

Principal uses (min.)	10	10	10	10	10

*Senior Citizen Planned Unit Development (SCPUD) requirements may be altered and are subject to discretionary approval by the Planning Commission on a per application basis.

**Accessory uses shall be no greater in height than the height of the principal use on the same lot, and in no case shall the height of the accessory use exceed 25 feet.

Superscript 1: The minimum lot width (as measured at the setback line) in the R-1-8 zone may be reduced subject to the following conditions:

- A. The lot being considered for an exception shall be created or subdivided from a legally existing lot that measures less than the minimum width required by this Zoning Ordinance but no less than seventy (70) feet, as measured at the setback line.
- B. The width of the lot created, as measured at the setback line shall not be less than seventy (70) feet.
- C. The front yard of the lot created shall front on a public or private street.

The City may deny any request to reduce the minimum lot-width in the R-1-8 zone upon finding:

- A. That the lot being considered is owned by the same entity as at least one adjacent lot, and in which the combination of the lots could allow for all lot widths to meet the requirements of this Zoning Ordinance, provided that no structure exists that would preclude such lot combination from taking place.
- B. That granting an exception in lot width would adversely impact the character of the existing neighborhood and urban design of the City.

Superscript 2: Properties with residential homes built prior to 1940, or legal at the time of Zoning Clearance Permit approval in a residential zone are exempt from the ten-foot (10') side yard (interior lot) setback with the following conditions: Additions or remodels made to said homes may extend the same non-conforming line of such an existing home, but in no case, shall any addition or remodel (including structural overhang and cantilevers) be closer to the adjacent property line than five (5) feet, i.e., a five (5) foot setback shall be maintained in all cases. The eaves shall not extend beyond 16" of the existing roof line or eave. (3-2023, 5-2-23)

Superscript 3: Residential properties that have a zero-lot line, such as single-family attached dwelling units where one unit is joined to another unit at one or more sides and the units are on separate lots of record, shall have a one (1) foot or greater side yard setback for accessory uses. The side yard must be unobstructed from the ground upward including all walls, posts, columns, overhangs and other projections. The setback is to help ensure that all storm water, including snow and water runoff, remains on the property of the accessory use and does not encroach on neighboring properties. (3-2023, 5-2-23)

B. **Nonresidential Space Requirement Chart:** The minimum lot sizes and setback distances for nonresidential uses are listed in the following table 3:
